Editing Wendy Placko

ARTIST'S STATEMENT

Tame was created as part of a film festival that pairs filmmakers with composers to create a new film with an original score. The concept for *Tame* originated from an improvisational piece I had developed for the theater. Theatrical actors contributed to the story, focusing on movement while limiting dialogue to tell the story and allow the score to shine.

DIRECTOR BIO

Wendy Placko lives and works in the Midwest, where she collaborates with local talent on original projects. She enjoys the challenge of creating work under limited budget constraints with minimal crew, and is passionate about telling creative stories.
